

671-2122 Vitamin C Molecule

Vitamin C, or ascorbic acid, is a nutrient essential for human health. Because humans have no ability to synthesize vitamin C, they must consume it in their diet. Vitamin C is used in the body to make and repair connective tissue, metabolize amino acids and protect the body from toxic chemicals.

The molecular formula for ascorbic acid is $C_6H_8O_6$.

To assemble your molecule, notice the holes on each particular atom. Press a connector firmly into this hole until it is flush with the surface of the atom. The connection should be firm but still easy to disassemble. Your molecule can be put together and taken apart as many times as you wish.

Warranty and Parts:

We replace all defective or missing parts free of charge. Additional replacement parts may be ordered toll-free. We accept MasterCard, Visa, checks and School P.O.s. All products warranted to be free from defect for 90 days. Does not apply to accident, misuse or normal wear and tear. Intended for children 13 years of age and up. This item is not a toy. It may contain small parts that can be choking hazards. Adult supervision is required.
